

About the service

The Sherwood Rehabilitation Team is based at Mansfield Community Hospital.

The team offer support from physiotherapy and occupational therapy staff.

Our aim is to promote your independence. We will complete an assessment and discuss your abilities and problems.

Your assessment may be face to face at Mansfield Community Hospital, or the therapist may visit you in your own home, or speak to you by telephone or video call appointment. You are welcome to have a friend or family member to support you with this and other aspects of your treatment if needed.

A programme of treatment and rehabilitation will be agreed with you and tailored to your individual needs. You may be invited to attend the rehabilitation department as an outpatient, visited by the therapy team at your home, or offered telephone or video call appointments, depending on the type and level of rehabilitation required.

We hold therapy sessions from Monday to Friday. After completing a course of treatment, you may be given a short break, and offered a re-assessment appointment to review your progress after a few weeks.
