WHICH ICP OBJECTIVES DOES THIS RELATE TO (SELECT ALL THAT ARE RELEVANT)

- To give every child the best start in life.
- To promote and encourage healthy choices.
- To support our population to age well.
- To maximise opportunities to develop our built environment into healthy places.
- To tackle physical inactivity.

EXECUTIVE SUMMARY (OVERVIEW):

The 5 ICP Objectives and 10 breakthrough objectives identified for 20/21 provide the Board with a number of actions that would be undertaken in support of delivery of our strategic objectives which provide the framework and themes in support of our overarching long term ICP vision.

The Q1 progress report against our strategic objectives continues to demonstrate that the breakthrough objectives remain long term and continue to need to be embedded in our partner organisations strategies and planning with the aim of delivering our aim of Healthier and Happier Communities.

Our Objectives and 10 breakthrough Objectives are

1, To give every child the best start in life	1.1 Increase readiness for school and the number of children with skills needed to start school. 1.2 Mothers and Babies have positive pregnancy outcomes. Children and parents have good health outcomes.
2, To promote and encourage healthy choices, improved resilience, and social connection.	2.1 Improve the connections and Integration of the voluntary sector and current health and social services available, to build effective services that support Alcohol, diabetes, cancer, EOL and joint and bone pain (MSK). 2.2 Help people to stop smoking
3, To Support our population to age well and reduce the gap in healthy life expectancy.	3.1 Build on the integration across the PCNs building on community-based assets that include the voluntary sector, care homes and care in the community settings. 3.2 Make sure people known to be frail are looked after in the best possible way.
4, To maximise opportunities to develop our built environment into healthy places.	4.1 Continue to ensure the physical environment within our communities is better used to ensure it has a positive impact on their health and wellbeing. 4.2 Continue to ensure everyone lives in safe and suitable housing and there is increased availability of social housing.
5, To tackle physical inactivity by developing our understanding of barriers and motivation.	5.1 Increased awareness within targeted communities of the existing and new programmes and initiatives. 5.2 Building on our understanding of physical activity, work together to enable communities to move more.

In 20/21 we agreed that our breakthrough objectives were identified following a test based on our core principles and ICP purpose.

1. Does a collective ICP approach add value over and above a single organisational approach?
2. Is it inclusive, overtly reflecting ways in which inequalities within our population will be addressed?
3. How does it connect to our identified neighbourhoods in greatest need?
4. Is the objective now specific, measurable, achievable, realistic and time limited/time stated?
5. Is it clear who is the lead, for the SMART objective delivery, and who will support?
6. Does it reflect either an area of expected delivery, and/or an area of our agreed 5 priorities
7. Is it in line with wider ICS/CCG objectives?
8. Does it recognise the new world with Covid in our communities?

The objective leads continue to work with the ICP support team to deliver the breakthrough objectives to ensure they reflect the learning and can be measured, and progress evidenced during 21/22.

The Board are asked to recognise the work that ICP partner organisations are playing in embedding the ICP strategic objectives and Vision through identified leads and the work being undertaken in connecting the objectives and ensuring appropriate membership and inclusion of all partners across our ICP partnership.

Some highlights include:

Objective 1.1 Children from low income groups often less ready for school than their peers so work is underway to increase the take up of funded childcare per week for 2-year olds. During lock down take up rates reduced from 80% to 50% and now are starting to increase with take up rates now standing at 72%. Further targeted work is required in priority areas.

Objective 2.1 MN ICP along with the South and City ICPs submitted a funding bid to support the prevention agenda within two of our priority neighbourhoods, the bid was successful and once further details are received from NHSEI the ICP team will be working with the CVS and Local Authority colleagues to utilise the funding. This is a really positive outcome with opportunity to use health funding to support our priority neighbourhoods and to understand what they need and would want to access.

Objective 3.1 MNICP have been working together with the Emmaus trust in Newark, delivering training through the social prescribers to the staff that care for the young people at the trust, to build relationships and engage them in community activities and groups available. By delivering this training directly to the trust the aim is to offer the support staff the information they can share with the young people when they raise either a concern or require information, providing early intervention / support and direction at point of discussion.

ICP priorities support the Objectives these include

PHM and data analysis – Future ICP opportunities and developments, and aligning to this is,

Nottingham and Nottinghamshire ICS have been asked to be part of a National PHM working with Optum. Mid Notts ICP have been asked to lead on this on behalf of Nottingham and Nottinghamshire from a place perspective.

Members of the Board will be asked on the 19th August to approve the Q1 updates for the objectives identified for 21/22 and be assured that they continue to identify the application of the 8-point check.

Members of the Board are asked to

- Note the progress that has been made in delivering our strategic objectives
- Note the collaboration and support from the ICP partners in delivering the objectives

- Endorse the Q1 report that is intended to provide the Board with the assurance that our long term objectives a contributing to our ICP vision

RECOMMENDATION:

- To endorse.
- To approve.
- To receive the recommendation.
- To discuss.
