**Subject:** Lampard Report

**Date:** 24<sup>th</sup> September 2015

**Author:** Jane Freezer, Safeguarding Adult Advisor

**Lead Director:** Susan Bowler, Executive Director of Nursing & Quality

## Executive Summary

In October 2012 the Secretary of State for Health commissioned an independent review of the investigations at three NHS hospitals (Leeds General Infirmary, Stoke Mandeville and Broadmoor) and the Department of health into the associations that the late Sir Jimmy Savile OBE, had with those hospitals and the Department and allegations that Savile committed sexual abuses on the hospital's premises.

The review lead by Kate Lampard and Ed Marsden were asked to identify any emergent themes from those investigations and to take an NHS-wide review of systems and processes in light of the investigation's findings and recommendations.

The purpose of this attached paper is to primarily analyse the findings and recommendations of the investigation report and secondly to undertake an organisational wide gap analysis in order to identify examples of compliance and areas that require further improvement in the form of an action plan.

## Recommendation

The Board are asked to note the progress made against the actions from the Lampard Review.

## Relevant Strategic Priorities (please mark in bold)

<b>To consistently deliver a high quality patient experience safely and effectively</b>	To develop extended clinical networks that benefit the patients we serve
To eliminate the variability of access to and outcomes from our acute services	To provide efficient and cost-effective services and deliver better value healthcare
To reduce demand on hospital services and deliver care closer to home
