Monthly Reporting for Screen Round Length (<= 36m) 1st October 2013 to 30th September 2014

| Unit | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Minimum standard not met - explanation |
|---------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|---|
| Kettering | Y | Y | Y | Y | Y | Y | Y | Y | Y | N | N | Y | Patients in the failsafes were being closed by 'hosp' instead of 'client' which meant they were coming back in the next failsafe as not having been offered an appointment. Due to the resident/registered transition, when we ran failsafe batch 1476 there were 125 women identified, the majority of whom will be over 36 months. We expect this to be rectified by October. |
| Northampton | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Leicester | N | N | N | N | Y | Y | Y | Y | Y | Y | N | Y | Slippage due to 2 practices being slotted into the schedule incorrectly. These practices were Dr HS Minhas & Partners (Oct & Nov Stats) in Thurmaston and Dr GE Aram & Partners (Dec & Jan Stats) in Countesthorpe. Both practices were brought to a different area this time but this has been corrected and should not cause the same problem in the next screening round. |
| Lincoln | Y | N | N | N | N | N | N | N | N | N | N | N | Slippage in November, December & January due to film reader availability, sickness of mammographers, consultant radiologist & consultant mammographer, staff annual leave & the demands of the symptomatic service. Lack of staff has resulted in the cancellation of screening on occasion. For February the practices being screened through static hospital timetables are all on target. The screening on Lincoln & Boston mobile units are suffering with round length. Lincoln's new mobile unit delayed due to it not working & hope to start asap. Boston mobile unit should be back with SRL next time but due to stoppages in 2013 it has taken longer to screen the area. For March & April - ongoing effect of previous cancellations & reduced screening due to 2 new mobile units. For May, June, July, August & September – availability of staff, clinics & increased numbers of women on monthly failsafe batches. |
| North Derbys | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | N | Slippage in September due to a delay in a screening batch which was caused because of a shortage of radiographer staff. A new radiographer starts next month but will still be understaffed. |
| South Derbys | Y | Y | Y | Y | Y | Y | Y | N | Y | Y | Y | N | Slippage in May – due to screening cancellations because of a mobile unit having a broken tube. Slippage in September due to staff availability. |
| North Notts | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Nottingham | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | N | Slippage due to approx. 500 appointments accidentally deleted from prism rather than the women being sent invitation letters. Once the error was discovered it wasn't possible to rebook inside the 3 year window as appointments were filled several weeks ahead. The error is a reflection of short staffing & lack of experience amongst the admin team following the departure of the office supervisor. |

Monthly Reporting for Technical Recall/Repeat Rates (<3%) – 1st October 2013 to 30th September 2014

| Unit | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Minimum standard not met – explanation |
|---------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|---|
| Kettering | N | N | N | N | N | Y | Y | Y | Y | Y | Y | Y | <p>The superintendent radiographer has audited performance and identified two main reasons for failure to achieve the target standard of performance. Firstly the way technical repeats are reviewed has led to more being recorded on NBSS than previously.</p> <p>Secondly, 4 staff are individual “outliers” who have a higher tendency for doing repeat images. (One of these staff members is an Assistant Practitioner who completed training in October, and therefore would be expected to have a higher repeat rate). The service has identified a training need for these staff and this will be addressed in the near future.</p> <p>Rates fell in February but still below the minimum standard. The unit has confirmed they are actively trying to reduce these rates & have an action plan in place which includes some staff training.</p> |
| Northampton | Y | Y | Y | N | Y | Y | Y | Y | Y | Y | Y | Y | Standard not met in January; two trainee radiographers commenced at unit. |
| Leicester | N | N | N | N | N | N | Y | Y | Y | Y | Y | Y | <p>Audit has been undertaken with radiographers and assistant practitioners to look at previous images to find trends & explanations for the high rate of recalls/repeat images.</p> <p>Over all the months where the standard is not met, some of the trainee's repeats have been undertaken on a radiographer's log on (which should be excluded) and some of the examinations recorded as repeats are not repeats as there are no additional images in the woman's file. Hence this is due to data errors on the NBSS computer system. Where there are repeats, some are due to blurring. Problems regarding NBSS were resolved in January. The standard was not met this month due to further problems; partly due to blurring still, but also the unit has had some new paddles, which they are adjusting to. For February & March – the unit have a lot of newly qualified staff & so they expected a higher repeat rate. They are actively doing everything they can to try to reduce this including staff training.</p> |
| Lincoln | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| North Derbys | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| South Derbys | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| North Notts | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Nottingham | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |

Monthly Reporting for Screen to Results Waiting Times (<= 2 weeks) – 1st October 2013 to 30th September 2014

| Unit | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Minimum standard not met - explanation |
|--------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|--|
| Kettering | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Northampton | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Leicester | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Lincoln | Y | Y | Y | N | Y | Y | Y | Y | N | N | N | N | Waits to results standards were not achieved due to the following: January - lack of film reader availability. June, July, August & September lack of staff availability due to annual leave, sick leave. |
| North Derbys | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| South Derbys | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| North Notts | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Nottingham | Y | Y | N | Y | Y | Y | Y | Y | Y | Y | Y | Y | Waits to results standards were not achieved due to staff shortages in December; the data quality administrator had left and staff training was therefore undertaken so standards would not be affected in the future. |

Monthly Reporting for Screen to Actual Assessment (<= 3 weeks) – 1st September 2013 to 31st August 2014

| Unit | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Minimum standard not met; explanation |
|---------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|---|
| Kettering | Y | Y | Y | Y | Y | Y | Y | Y | N | Y | Y | Y | May – due to patient cancellations for holidays & DNAs |
| Northampton | N | Y | Y | Y | N | Y | Y | Y | Y | Y | Y | N | September – mostly due to cancellations for holidays. January – due to a combination of patient DNAs & cancellations for holidays. August – due to a combination of patient DNAs & cancellations for holidays. |
| Leicester | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | |
| Lincoln | N | Y | N | N | N | N | N | N | N | N | N | N | Waits to actual assessment standards were not met due to the following: September-December due to the lack of film reader availability; sickness of mammographers, sickness of consultant radiologist & consultant mammographer, consultant radiologist annual leave, and the demands of the symptomatic service. January; lack of film reader availability due to festive period. February, March & April; lack of film readers to convene a consensus panel to read films requiring a 3 rd read. May – lack of available film readers & loss of 2 assessment clinics due to Bank Holidays. June, July & August – lack of available film readers & cancelled clinics. |
| North Derbys | Y | Y | Y | Y | N | Y | N | Y | N | Y | Y | N | This was anticipated by the unit & discussed at the last team meeting. They lost clinics over the festive period due to bank holidays & also cancelled 2 clinics which had a knock on effect in January. For March, May & August it was mainly due to patient choice – work/holidays. |
| South Derbys | N | N | N | Y | N | N | N | Y | Y | N | N | N | For all months due to a combination of patient work commitments, holidays and serial non-attenders. For January it was due to a combination of patient cancellations and less available clinics over the festive period. For February & March it was mostly due to patient cancellations. For June, July & August it was due to patient choice – work/holidays. |
| North Notts | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | Y | N | For August it was due to patients being on holiday. |
| Nottingham | Y | Y | N | Y | Y | Y | Y | Y | Y | N | Y | N | For November it was due to serial non-attenders. For June it was due to patient DNAs & cancellations for holidays. For August it was due to patients rebooking during the holiday period. |

Monthly Reporting for Screen to First Offered Assessment Appt. (<= 3 weeks) – 1st September 2013 to 31st August 2014

| Unit | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Minimum standard not met - explanation |
