

Lead Governor report August 2018

This has been a relatively quiet quarter after the CQC visit - results eagerly awaited. Unfortunately, I was away for the big birthday but I must congratulate Keith and all his walkers for their efforts and the magnificent sum they raised for the Scanner Appeal.

Engagement

The 'Meet your Governor' sessions are continuing but I am afraid attendance is not so good – I would like to put it down to the holiday season and hope that the autumn brings renewed interest. Some Governors have also attended various PPG groups.

Board Committees

Governors have continued to observe on these committees and we did decide to review this new system of holding the Non-Executive Directors to account in September. We should be able to fix a date at the Council of Governors

15 steps

I have found these to be very interesting and informative and I hope that other Governors who have been involved will agree.

Volunteers

I attended the Volunteers AGM in June and was once again amazed at the long service of many of our volunteers. We all owe them a huge debt of gratitude and especially for continuing to support the hospitals through the long hot spell

Sue Holmes – Lead Governor
