Executive Summary				
<p>System working has remained a key focus of the organisation throughout 2018/19, and SFH has continued to play a pivotal part in all aspects of the ICS and Better Together. Whilst overall service transformation remains limited, the consolidation of delivery models for urology and neurology, the continued success and embedding of the MSK Together service and the commencement of a new partnership model for end of life services are notable successes.</p> <p>The re-framing of the SFH strategy to be more system focused will mark a significant step towards SFH assuming more influence in, and responsibility for, the health and wellbeing of local communities.</p>
