INFORMATION FOR PATIENTS

Head injuries - children

Emergency Department

King's Mill Hospital

Mansfield Road
Sutton in Ashfield
Notts NG17 4JL
Telephone: 01623 622515, extension 2789

Newark Hospital

Boundary Road
Newark
Notts NG24 4DE
Telephone: 01636 681681

A clinician has reviewed your child who presented following a head injury and are happy for them to go home.

When you get back home it is unlikely that they will have any further problems. **However, please do not leave your child alone for the next 24 hours.** If you are unable to stay with them, please ensure that another responsible adult is with them for this duration.

Please return immediately to the Emergency Department or call 999 if your child develops the following:

- Seizure activity.
- Abnormal drowsiness.
- Separate episodes of vomiting, (each episode 30 minutes apart would count as one separate episode);
- New onset of confusion.

- Loss of balance, or weakness in any part of the body.
- New onset of blurred vision.
- Problems speaking or understanding.
- Severe and worsening headache despite regular analgesia.
- Clear fluid coming out of your child's ear or nose.
- New deafness in one or both ears.

Following a mild head injury children may develop **concussion** - signs and symptoms of concussion may be very varied. Some of the examples are:

- Headache or a feeling of pressure in the head.
- Nausea or vomiting.
- Balance problems or dizziness.
- Double or blurry vision.
- Sensitivity to light or noise.

- Feeling fatigued, sluggish, groggy or dazed.
- Trouble paying attention.
- Memory problems.
- Confusion.
- Being slow to understand and respond to others.
- Sleeping problems.
- Mood changes and irritability.
- Changes in behaviour.
- Changes in personality.

If you are concerned about your child, please return to the hospital for your child to be reviewed again.

Please note that a child may be able to resume their normal physical activity following a concussion after 14 days.

If the symptoms of the concussion do not resolve within two weeks, your child needs to be seen by their GP.
