Executive Summary				
<p>We are proposing a strategy to develop Newark Hospital into a Health and Wellbeing village, as an evolution from an acute hospital setting. The proposed strategy is built on SFHFT's vision of 'Healthier communities and outstanding care for all' and its strategic objectives. We propose a Newark Hospital Strategy based on developing services under the following principles:</p> <ol style="list-style-type: none"> 1. A strategy built on four key areas – Urgent care, Elective care, Community services and Health promotion to enable Newark Citizens to remain healthy, independent and in their own community; 2. Continuing to provide high quality safe and sustainable care; 3. Improving patient and carer experience by bringing care closer to home through enhancing the offer on urgent and elective care; and 4. Working in partnership with PCN, council, local authorities, other NHS Trusts, voluntary services and patient groups to establish the hospital as the Newark Health Village – a community hub that promotes healthy lifestyles and prevention <p>The enclosed paper provides an update on the development of the strategy and outlines current thinking on the future opportunities that Newark Hospital presents.</p> <p>The Board is asked to:</p> <ul style="list-style-type: none"> • Note the progress update provided, outlining the anticipated future direction and opportunities of Newark Hospital • Note the alignment with the national and local strategic direction • Note the next steps outlined
