

INFORMATION FOR PATIENTS

Respiratory muscle tests

Your doctor has requested that we perform a test on your breathing to help guide your medical treatment.

Doctors commonly request this test to test the strength of your respiratory muscles that help you to breathe in and out.

The procedure

You will be asked to breathe in and out of a machine; you will be either seated or laid flat during the tests. There are two main tests you may be asked to perform:

- During the first part you will be asked to blow out as far as possible, and then suck in as hard as you can against a blocked tube.

You will then be asked to do the opposite – breathe in as much as possible and then blow out as hard as possible against a blocked tube.

- The second test involves you blowing out as far as you can when sat and then again when laid flat to assess the difference.

The doctor may also wish us to take a small sample of blood from your earlobe to measure your oxygen levels.

Please bring with you a list of your current medications.

Before the test

Before attending for your lung function test, please:

- Do not do any vigorous exercise for 30 minutes.
- Do not wear any tight clothing that may restrict your breathing.
- Do not smoke for at least one hour.
- Avoid eating a heavy meal or drinks containing caffeine for two hours.
- Do not drink alcohol for four hours.

Please continue to take all prescribed medication as normal.

Please contact the department if you have experienced any of the following:

- A current or recent chest infection (within the last two weeks).
- Recent eye, stomach, or chest surgery.
- A heart attack within the last month.
- Have attended an Emergency Department in the last two to three days.
- Chest pain on the day of your test.

Please allow up to one hour for this appointment.

Results

The results will go to your doctor who will explain them to you at your next clinic visit. Please note that you will not be given the results on the day of your test.

What if I need hospital transport?

You will need to arrange transport by telephoning the following numbers between 7am and 9pm, Monday to Saturday (please use the number for the area you live):

- Nottinghamshire: 0345 266 9662
- Derbyshire: 0300 300 3434
- Lincolnshire: 0848 357 1556
