

INFORMATION FOR PATIENTS/PARENTS/GUARDIANS/CARERS

Paediatric abdominal scan requiring fasting

Preparation for your child's scan

The preparation needed for this scan requires the patient has **no** food or milk before the scan. Suggested preparation for the scan is as follows:

- **0 - 6 months** - no feeds for the 3 hours prior to the appointment. Please time a feed for just after the scan.
- **6 months - 3 years** - no food or milk for 3 hours prior to the appointment. They may drink clear fluids during this time (depending on if the child normally drinks water).
- **4 - 18 years** - no food or milk for 4 hours prior to the appointment. Patients may drink clear fluids during this time.

Clear fluids include water and squash but excludes drinks such as milk and fruit juice.

If the patient is diabetic and there are concerns about them fasting, please obtain patient-specific advice from their diabetes team.

Please obtain fasting advice from the relevant team/consultant if there are any fasting concerns due to any other medical reason.

Contact details

If you need any advice before your appointment date, please contact the Radiology department on 01623 672202 between 9am and 5pm.
