

INFORMATION FOR PATIENTS

Omo Neurexa shoulder brace

Why do I need to wear this brace?

This shoulder brace has been prescribed to you because the muscles in your arm are not working well enough to keep your shoulder in position. The brace is designed to improve your posture and reduce your pain symptoms.

This brace has been fitted for your use only. Do not adjust it or fit it to anyone else. It is important to wear the brace as instructed.

How long do I need to wear the brace?

Your physiotherapist will discuss with you the length of time you need to wear it.

When should I wear the brace?

The brace should be worn whenever you are sitting or walking around. The brace should not be worn in bed overnight.

How should I put the brace on?

The person who fits your brace will explain how to do this. Once you are at home continue to use the same method. You may need assistance to put the brace on.

How do I look after my brace?

When not being worn stick the Velcro parts together, this protects the Velcro. Close all Velcro fastenings before washing - machine washing at 40°C (104°F) is recommended.

Use a dry towel to absorb excess moisture and leave to dry at room temperature away from direct heat. Do not iron.

Precautions

It is advisable to wear the shoulder brace directly against your skin with regular daily skin checks.

Always follow the guidance of your orthotist or physiotherapist regarding the use of this shoulder brace.

Eligibility

One Omo Neurexa brace will be supplied initially. As this wears out, we will replace it. The life span of your brace will depend on your activity level and the frequency of use. If you wish to have more braces, please contact the department for a quote.

Please keep this leaflet safe for future use. You are now able to contact the department directly for orthotic care as required. If you need a review appointment, or if the orthosis requires servicing or replacement, you **do not** need to be referred again.

If there are new symptom(s)/condition(s) that are unrelated, a new referral will be required to be assessed for further orthotic management.

Your brace has been fitted by:
