| Contact number | | |

Diabetes dietitian's contact number: 01623 622515, extension 6570

Practising carbohydrate (CHO) estimations

Use this diary to record your food and drink intake over the period of time that has been recommended by your dietitian or nurse.

Keeping a food diary will help you become more familiar with:

- 1. Foods and drinks containing carbohydrate.
- 2. How to read food labels correctly to identify the amount of carbohydrate within the food.
- 3. The amount of carbohydrate within a portion of food.
- 4. Your own eating pattern and food choices.

Try and remember to record all food and drinks consumed and to document the quantity you eat. This includes the weight of the food (for example cereal/pasta/mashed potato if weighed) or how many slices of bread/rolls.

Doing this will give a more accurate reflection of what you typically eat and drink each day and how much.

The dietitian and nurse can then advise you further to help you get optimum control of your diabetes.

| Date | Time | Food/drink | CHO (g) |
|---------|---------|--|-----------------------|
| | | quantity of weight | estimation |
| Example | | | |
| 12/9/17 | 7:30 am | Cornflakes (25g) Milk (100ml) Slice thick white toast Butter | 21g 5g 20g 0g 46g CHO |
