## Breast Unit

Dear

Diagnosis: *Grade, Stage and Type of breast cancer*

Treatment summary: *Type of Surgery and Date, further adjuvant treatments*

Thank you for attending the Breast Clinic today. We had the opportunity to review your G.P./clinic notes and you are in agreement with the contents. You were accompanied by ..... and seen in the presence of our Clinic Nurse .....

You have recently reached 5 years since your diagnosis and treatment for breast cancer.

I am glad to see you remain well and free from recurrence of your previously treated breast cancer.

This is reassuring and I was happy to inform you that your up-to-date mammograms were normal.

Optional paragraph – any concerns and change to plan

The Breast Unit Multidisciplinary team has reviewed your case and as per national guidelines you can now be discharged from the unit to the care of your GP.

Mammograms will continue under the routine breast screening programme. If you have yet to reach the age for national screening programme, your mammograms will continue annually until then. .

Yours sincerely
